

## FV 2239

## FV 2239

1

Impact resistant MDPE casing.

2

Integral mounting holes ensure that the silencing cover can be securely staked to the ground (where possible).

3

Flexible air outlet areas ensure that all fan types can be catered for.

4

Advanced sound absorbent foam ensures significant decibel level reduction.

5

Ergonomic integral carrying holes ensuring that the unit can be easily manoeuvred.

6

Stackable design means that multiple sound covers can be stored with only a singular footprint.

## Sound Pressure Level - Measured Reduction

FP 5006 Fan WITHOUT Acoustic Cover	81 dBA @ 1m
	73 dBA @ 5m
FP 5006 Fan WITH Acoustic Cover	73 dBA @ 1m
	65 dBA @ 5m

- Nominal noise reduction of 8 dBA overall @ 1m distance from fan.
- Nominal noise reduction of 8 dBA overall @ 5m distance from fan.
